### Question

We want to use OAI data provider. How to proceed?  
Does it need to be installed or just activated?

---

### Answer

There is no extra installation needed.

For implementing the OAI provider you have to follow the following manuals from Ex Libris Documentation Center > Aleph > Technical Documentation > OAI and Publishing:

- \* Aleph Publishing Mechanism
- \* Publishing Based OAI Data Provider

(Ignore the OAI Data Provider-document as this is for the legacy OAI provider).
