

ACQ: Open two sessions on PC?

- **Article Type:** Q&A
 - **Product:** Voyager
 - **Product Version:** 8.2.2
-

Question

Is it possible to have two Acquisitions sessions open at the same time?

Answer

Circulation is the only client that supports multiple concurrent sessions on the same workstation. All other Voyager clients, including Acquisitions, support one open session. If you wish to log into a different Acquisitions happening location, you must end the current session first.
