Question

What's the difference between Z303-ILL-ACTIVE-LIMIT and Z303-ILL-TOTAL-LIMIT ?

Answer

Z303-ILL-ACTIVE-LIMIT Total number of outstanding ILL requests allowed for patron.

Z303-ILL-TOTAL-LIMIT Total number of ILL requests allowed for the patron in a defined period. The period is configured in \$alephe_root/www_server.conf (see document "Aleph Syslib Guide - Integrated III", chapter 31.
