### Question

How to avoid records from being published to Primo? Records with STA field are not displayed in the OPAC but they appear in Primo.

### Answer

In table xxx01/tab/tab\_publish base, column 2 base name xxx01 must be added. Suppressed records will then NOT be published to Primo according to the rules in \$alephe\_tab/tab\_base.lng:

XXX01 N alldocuments not wiv=(SUPPRESSED or AUSSO\* or BEST\* or INV\*)
