### Question

Which line items roll over when running Fiscal Period Close (FPC)?

### Answer

- If the combination of line item status and invoice item status is marked **Yes** or **Yes\*** as shown in table 16-1 of the [Acquisitions User's Guide](#), the line item copy appears on the Open Order Report.
- The statuses marked **Yes\*** in the table are the line items that are eligible for rollover.

### Additional Information

**NOTE:** Prepaid items and line item Adjustments do not roll, nor do line items on POs that have a PO Status of Complete.

**NOTE:** For an eligible line item to roll over during FPC, the Rollover Rule must also be configured to allow the order type/line item type combination to roll over.
