## PSR: patron.html file not used by PSR?

- **Article Type:** Q&A
  - **Product:** Voyager
  - **Product Version:** 8.2.2
- 

### Question

We're setting up Patron Self-Registration (PSR), but my customized patron.html file doesn't seem to be called in the display. How can I get Voyager to recognize this file?

### Answer

patron.html is part of the Classic WebVoyage implementation of Patron Self-Registration. Make edits to the instructions and field labels in patron.xml for Tomcat WebVoyage.
