Question

Is Aleph certified for Internet Explorer 10 and 11?

Answer

The certification process for Internet Explorer 10 and 11 for Aleph Version 21 and 22 has been successfully completed. Aleph version 21, 22 and up are certified for the use of Internet Explorer 10 and 11.

Additional Information

Note: there's a specific problem with the calendar in booking and SDI pages in Internet Explorer 10. This problem is not happening in Internet Explorer 11 and can be resolved with "Compatibility view" IE 10.

With Aleph version 24 Ex Libris will stop the certification for Internet Explorer. See also here [Aleph Discontinues Certification of Internet Explorer from Aleph version 24](#)
