Question

Is it possible to add the DRL field as part of BIB info, to a form, such as acq-arrival-message? In case Yes, how can we do this?

Answer

The BIB information in ACQ arrival message is taken from Z13 record. If you add the field DRL to Z13 record (adjust xxx01/tab/tab22 in order to add the field) you could also display it in the ACQ arrival message. In addition you have to add the following line to xxx01/tab/tab_expand:

```
CREATE-Z13 expand_doc_link_to_doc
```

Please note that "Update of short bibliographic records (p_manage_07)" is required afterwards.
