

## Services default report language

- **Article Type:** Q&A
  - **Product:** Aleph
  - **Product Version:** 20
- 

### Question

\* How to setup default report language for services?

---

### Answer

- \* The system takes the language from the parameter CON\_START in \$data\_root/prof\_library file of each library
- \* For example to set the default language to be in German:  
set\_symbol CON\_START GER
- \* Restart the PC Server
