Question

Do the following errors indicate a problem:

* in the PC server log:

```
Oracle error: io_z02_write  
ORA-00001: unique constraint (XXX01.Z02_ID) violated
```

* and these similar messages in the xxx01 \$data_scratch/run_e_01.nnnn.log:

```
HANDLING DOC NO. - XXX01.000284498 2012-12-18 09:56:12
```

```
Oracle error: io_z02_write  
ORA-00001: unique constraint (XXX01.Z02_ID) violated
```

Answer

If no other problem is found in conjunction with these messages, they can be ignored.

Additional Information

The previously-encountered cases of these messages have had causes such as multiple updates being written very closely together.
