Question

How can I change the bib-info that is included into the bib-info for the forms cash-summary.xml, cash-pay-receipt-pay.xml and cash-pay-waive-debit.xml? Currently only data from the 245-field is displayed, instead data from the 097, 100 and 245 fields are wanted.

Answer

The answer is that you can't. There are a couple of printouts which are hardcoded to take the bib-info from Z13-TITLE. cash-pay-receipt-pay and cash-summary are two of them. Customization of bib-info for these two printouts through xxx50/tab/bib_format and xxx01/tab/edit_paragraph.lng would be an Enhancement Request.
