-

Question

How to delete a field in the conversion when it has a specific text in a specific subfield. The field can occur several times in the record.

Example: Field 994 shall be deleted when it has \$\$zABC

Answer

```
xxx01/tab/tab_fix_nnn  
>>PAR STD-TAG=#####  
994## 994 chk_contains z,"ABC",TRUE=CANCEL-FIELD,FALSE=CONTINUE
```

```
xxx01/tab/tab_expand  
TEST fix_doc_convtb FILE=tab_fix_nnn
```
