

Setting Default Print Configuration

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 20, 21, 22, 23
-

Description

In the task manager, is there a way to permanently set the print configuration to normal printing versus preview? If the GUI is closed, setting return to preview.

Resolution

Change alephcom\tab\alephcom.ini in the section:

[Print]

Change this line:

DefaultPrintConfig=1

to:

DefaultPrintConfig=0

The values for this field are as follows:

0 = Normal Printing

1 = Preview

2 = View Raw XML

3 = Browse XML

4 = Browse HTML

Save the alephcom.ini file and restart the GUI.
