Question

Where can I find more information on RESTful API's to use with Voyager?

Answer

Documentation on the specifics of using APIs, including required parameters, format and examples, are available on the Ex Libris Developer Network: <https://developers.exlibrisgroup.com/voyager/apis/RESTfulWebServices>

Additional Information

Please note that Voyager Support has a very limited ability to assist with the Voyager APIs. We can help identify the APIs that might be useful to you, and provide very basic troubleshooting aid. [Voyager-L](#) and [Developer Network](#) are useful resources for obtaining additional assistance.
