
Emailed Activity Status Change Notification should include the SIP ID

- **Article Type:** General
- **Product:** Rosetta
- **Product Version:** 3.2.

Desired Outcome Goal:

A Sip Id field was added to the "Activity Status Change Notification" Email.

This change was made in the OTB configuration files only.

Procedure:

Existing customers can add the Sip Id by editing the email_to_depositor_body.xml and the email_to_depositor_submission.xml files located under Producers -> E-mails Configuration. (One of the edited files is attached as an example.)

The following code should be added:

```
<xsl:if test="//HDpDepositActivity/sipld">  
<th>Sip Id</th>  
<td><xsl:value-of select="//HDpDepositActivity/sipld"/></td>  
</xsl:if>
```

Additional Information
