
extra periods in holdings display

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 18.01
-

Description:

In the opac, in the full-xxx-body holdings view extra periods are appearing in the 1XX and 2XX fields that don't appear in the full view of record. For example

Holdings

Crider, Albert Foster, 1873-:

Cement and Portland cement materials of Mississippi /by Albert F. Crider..

[Miss.] : Mississippi State Geological Survey, 1907.

73 p., [6] leaves of plates : ill. ; 23 cm..

How is this corrected?

Resolution:

Format 012 in xxx01/tab/edit_doc.eng is used by the system for display of bibliographic information in the OPAC list of items display. If edit_doc.eng has:

```
012 ## ## 013
```

you need to go to xxx01/tab/edit_paragraph.eng and find all the lines which have Paragraph identifier 13, e.g.:

```
"013 245## 9 ## ."
```

...

Col. 5 is suffix. If you don't need any suffix, remove "." from col. 5 and restart web server.
