

Delete Non linked ADM Record with Item

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 21
-

Desired Outcome Goal:

Delete a non linked ADM record with item

For an unknown reason, an ADM record which has an item attached is not linked to a BIB record.

When opening the record in CAT module error message "Cannot find BIB record" is displayed.

Procedure:

- Select a random BIB record from the database which has no ADM record and no item.
- Move to the ADM record which is to be deleted and modify field LKR\$\$b. Put in the BIB system number there of the random record that you have selected.
- The ADM record i
