

## Can GKEY be first index in Advanced search?

- **Article Type:** Q&A
  - **Product:** Voyager
  - **Product Version:** 6.5.4
- 

### Question

In OPAC Advanced search, the search index defaults to Title. Can we reorder these to make GKEY the default index?

---

### Answer

No. The order of search indexes in the Advanced search page is *not* configurable, but is dependent on the number of searches done on a particular index. The indexes sort according to frequency of use, from most to least.

### Additional Information

See: [What is the SEARCHPARAM table in Voyager Prepackaged Access Reports?](#)
