
How to remove a file from IE in TA

- **Article Type:** General
 - **Product:** Rosetta
 - **Product Version:** 3.2.2
-

Desired Outcome Goal:

Remove a file from an IE that is in TA

Procedure:

1. Reject the SIP
2. The producer can then login in the deposit area, and under the directory "returned", he will then :
 - * edit the SIP
 - * remove the unwanted file
 - * click resubmit.

Additional Information

This only works if the SIPs were ingested manually, not through NFS
