## How to customize the "My Account" link in the E-mail/Letter?

- **Article Type:** General
  - **Product:** Alma
- 

Desired Outcome Goal:

When e-mails are sent from the library, the bottom right corner has a link called "My Account". It has an empty link. How can I localize it?

Procedure:

The "Customer Parameters" Mapping Table table's "email\_my\_account" row defines the content of the link.

Please select:

1. Alma > General Configuration Menu
2. Click > Other Settings
3. Search for the line "email\_my\_account" select "Customize"
4. Put the required URL, e.g.

| `http://www.yoel.com`

---

### Additional Information

If your URL has an ampersand it should be "escaped" (encoded).

Instead of:

| `http://www.yoel.com/primo_library/libweb/action/login.do?loginFn=signin&vid=YLK_VU1`

Put:

| `http://www.yoel.com/primo_library/libweb/action/login.do?loginFn=signin%26vid=YLK_VU1`

Another example URL:

| `http://primo.lib.edu/primo_library/libweb/action/myAccountMenu.do?vid=DEFAULT`

---

#### Note

For more information about the format of this URL, see [How do you create a URL that will link users directly to the My Account page in Primo?](#)
