

Cannot receive issue in acquisitions module

- **Article Type:** Q&A
 - **Product:** Aleph
 - **Product Version:** 21
-

Question

Trying to receive an issue (issue 6) of a publication does not show this specific issue among the received issues. Why?

Answer

Issue number 6 is not displayed in the Check-in list because its material type does not start with "ISS" (its z30_material_type is "DIGIT"). Only "ISS" items are displayed in the Check-In list.
