

Access rights for adding and modifying an order

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 20
-

Desired Outcome Goal:

How to set the access rights for adding a new order but restricting the modification of an order.

Procedure:

Unfortunately the access rights for adding an order and modify an order are combined so that it's not possible to assign
- order - new - allowed

AND

- order - modification - not allowed
