## Is read-only catalog (Continuous OPAC) during upgrade available?

- **Product:** Voyager
  - **Product Version:** 8.2.2
- 

### Question

Is it possible to set up a read-only catalog or Continuous OPAC for use during the Voyager upgrade? What if the Voyager server is hosted with Ex Libris?

### Answer

Continuous OPAC is not offered as an option to hosted customers.

Local customers may implement a read-only OPAC and are responsible for their own setup, testing and maintenance.
