

Search for a given range of call numbers

- **Article Type:** General
 - **Product:** Alma
-

Question

How to create a list of Physical Items in a given call number range?

Answer

1. Open an advanced Repository Search and select Physical Titles
2. Add the condition "Permanent call number" twice and "Permanent call number type" once
3. In the drop down menus select call number type and define the range

Additional Information

The results of this search can be exported as a spreadsheet or saved as a logical set.
