

## How to notify the requesters of the new books

- **Article Type:** Q&A
  - **Product:** Aleph
  - **Product Version:** 21
- 

### Question

How to notify the requesters that the books have arrived in the library?

---

### Answer

You could use the following workaround:

- copy the Initiator ID listed in the Order
- search for the ID in the circulation module
- use the functionality 'Email message' from the patrons address details to notify about the arrival of the requested books
