
How to change the user instructions on the "My Searches" page.

- **Product:** Voyager
-

Question

How to change the content of the user instructions located at the top of the "My Searches" page in WebVoyage?

Answer

1. On the Voyager server, open the following file in a text editor: `/m1/voyager/xxxdb/tomcat/vwebv/context/vwebv/ui/[local skin]/xsl/userTextConfigs/pageProperties.xml`
 2. Locate the line in this file that reads: `<div class="instructionText">`
 3. Edit the HTML within `<div class="instructionText"></div>` to reflect the the desired user instructions.
 4. Save the file and test the changes in WebVoyage.
