
p_manage_01 did not finish on abc10 Test

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 18.01
-

Description:

We have loaded a new authorities library on ABC10 and are indexing the records. Manage-01 did not finish.

Resolution:

The /exlibris/aleph/u18_1/abc10/scratch/p_manage_01_a.err file shows that this is a space problem.

util o/14/1 shows:

```
TABLESPACE_WITHOUT_FREE_SPACE
```

```
-----  
TS1D
```

After adding datafile(s) you will need to do util c/6 to unlock the library before re-running.
