
Item Process Status and Fines in tab16

- **Article Type:** General
 - **Product:** Aleph

-

Description:

Fines are not being properly assessed as defined in tab16. The problem involves a line that has a specific process status in column 3 (item process status) instead of a wildcard.

The tab16 header indicates that column 3 (item process status) is not used in the calculation of due dates, but does not mention overdue fines.

We require different fine rates on items with different item process statuses. It appears that overdue fines are calculated using lower tab16 lines (where column 3 = wildcard).

Example:

!*12 1 Week Loan

USM16 12 LA 17 + 00000000 00 + 0000 0200 01000 999 001 7 + 00000007 + 0000 000 000 01 40.00 3.00 001 0

USM16 12 ## 17 + 00000000 10 A 0000 0800 00050 999 000 7 + 00000007 A 2359 000 000 03 15.00 3.00 000 0

Resolution:

Development Issue 19660 "Item Process Status and Fines in tab16" opened 14 Jan 2008.

This issue is still open and was escalated to Development for further investigation <2008-01-20 01:00:04>.
