

## Size allocated on screen for editing user notes

- **Article Type:** Q&A
  - **Product:** Alma
- 

### Question

Is it possible to increase the size of the box when editing a note in a user record?  
I've had complaints from staff that they would prefer to see more of a long note without having to scroll down.

---

### Answer

Yes this is possible. Please put the cursor on the dotted triangle in the bottom right corner of the note field and drag it to enlarge the size of the note field
