Question

Where in Query Studio does one find the Subscription From Date and To Date elements found on an invoice

Answer

The Invoice line items (Z75) are not reflected in ARC, therefore the Subscription From Date (z75_i_date_from) and To Date (z75_i_date_to) are also not included.

Additional Information

The only dates for subscription are the fields from the Aleph subscription record (z16): z16_copy_from_date and z16_copy_to_date which might be helpful instead.
