
Direct Users Directly to and from "My Account" Page in WebVoyage

- **Product:** Voyager
 - **Product Version:** 8.2.2
-

Question

We want to use a link to go directly to a user's "My Account" page and direct them to library home page after logging out. How can this be configured?

Answer

- In `webvoyage.properties`: set `option.startPage` to the URL users are to be directed to after logging out of WebVoyage
- When linking to WebVoyage from outside pages, format URL as `http://[Your WebVoyage URL]/vwebv/myAccount`

Additional Information

This configuration will allow the user to log in and out of WebVoyage to access "My Account" without being directed to a WebVoyage search page. Users cannot be prevented from linking from "My Account" to WebVoyage search without significant modifications to WebVoyage.
