

Online recall in version 18

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 18.01
-

Description:

In version 18 we are supposed to be able to do "dynamic recall".

[rep_ver 11335:] "Enable an online recall that will be based on a request, both the request and the recall will be done in a single step by using the hold request page. The loan's date will be immediately changed and the item will be identified as held for a specific patron when it is returned."

But we don't see any Recall button in version 18.

Resolution:

tab100: ONLINE-RECALL=Y

Additional Information

recall, online, button
