

No focus on the print setup dialog box

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 20
-

Description:

Problem Description:No focus on the print setup dialog box

Actual Results:The OK button isn't the focus when the print setup dialog box displays, and neither is anything else the focus when the print setup dialog box displays.

Expected Results:The OK button, as is standard with Windows functionality, should be the focus when the print setup dialog box displays.

Resolution:

Resolution:

This will be solved in the new HTMLPrint version in Aleph v.22.
