## Displaying format in Web OPAC

- **Article Type:** General
  - **Product:** Aleph
  - **Product Version:** 16.02
- 

### Description:

Why is a monograph followed by "ON" in the Web OPAC?

### Resolution:

ON is defined in your system as a type of bibliographic format. That is because you have the following three lines in the table

```
$data_tab/tab_type_config.eng:
```

```
TYP ON 85641 EXIST
```

```
TYP ON 85640 EXIST
```

```
TYP ON 856## 2 EQUAL http
```

and the record in question has an 856 field.

Remove these lines and ON will no longer appear.

---

## Additional Information

Version 16, displaying format, Web OPAC
