
Time Needed to Run manage-15 in Very Large Databases

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 16 and up
-

Description:

Are there any estimates as to how long it will take to run p_manage_15 against in the BIB library?

Will it lock the library?

Resolution:

This job does not lock the library.

Here are some facts for time calculation:

In a BIB library with 106,426 z01 records, this job took 2 minutes.
68,629,062 z01 records, it should take approx. 21 hours

In a BIB library with 2002131 z00 records (last-doc-number in util g 2) manage-15 takes often at least 24 hours.

In a AUT library with 31,071,255 z01 records, it would take approx. 8 hours.
