

## p\_ser\_44 does not sort by title

- **Article Type:** General
  - **Product:** Aleph
  - **Product Version:** 18.01
- 

### Description:

After running ser-44 with the sort set to 'Title' the resulting set of claim letters is not sorted correctly. Is it possible to have the letters sorted by title?

### Resolution:

The Sort Report Option is only used when you select an Output Type of Report. (There should be two Report options under Output Type.)

If you specify one of the Letter options under Output Type, the output will not be sorted.
