

Mass deletion of Cataloging triggers

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 16.02
-

Description:

Is there a way in 16.02 to do mass deletion of Cataloging triggers?

Resolution:

The triggers are z104 records. To delete all triggers in a particular library, dlib to the library and then do util a/17/1, specifying "z104" as the table to be dropped/created..

Or one could use SQL to selectively delete triggers, using Z104_OPEN_DATE, Z104_CATALOGER, or Z104_DEPARTMENT as the basis for deletion..

Note: p_com_01 is a trigger report.
