
Browse Uniform Title headings (subfield 9) - UNIMARC

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 18.01
-

Desired Outcome Goal:

* Display subfield 9 added to the Uniform Title Heading in the Browse List, following the new Italian Cataloging Rules (REICAT)

Procedure:

1. Edit xxx01/tab/tab11_acc table
2. Locate 500 field and add subfield 9 to the subfields for indexing for the code of the Uniform Title heading (e.g.. TIT)
3. Edit xxx01/tab/edit_field.lng.
4. Add subfield 9 in col.7 to the list of subfields for TIT and set prefix/suffix (columns 9 and 10) required by the Standard
5. Note: use the proper ID for the TIT heading (col.4):
"H" is used for ACC (headings) display in the WEB OPAC
"C" is used for ACC (headings) display in GUI clients
6. Re-start pc_server and www_server

Note: if subfield 9 for TIT heading is a new implementation in the Catalog it isn't mandatory to run the "Update Headings Index" (manage-02) service

Category: Cataloging (500)

Subject: Table configuration
