

## Blanking out the month in GUI month dropdown

- **Article Type:** General
  - **Product:** Aleph
  - **Product Version:** 20
- 

### Description:

I want to delete the "To" date in one of the lines on the GUI Circ Loan "Open Dates" screen. I can delete the year but find that there is nothing I can do ("delete" key or space bar) to blank out the month.

### Resolution:

One of the choices in the month dropdown is blank. The same is true of the month dropdown elsewhere in the GUI.
