

## How to identify and report broken links (URL, 404's)?

- **Article Type:** General
  - **Product:** Aleph
  - **Product Version:** 16.02
- 

### Description:

Our Library is on Aleph (Version 16.02) How does this ILS identify and report broken links (URL, 404's)?

### Resolution:

The GUI Cataloging -- Services job p\_print\_11 goes through the bib records and checks the URLs.
