

Floating keyboard partially displays in Mozilla Firefox

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 18.01
-

Description:

Problem Description: Floating keyboard partially displays in Mozilla Firefox

Actual Results: Floating keyboard displays everything in IE 7, but only Virtual Keyboard, the Select Language dropdown box, and the space, del, done and cancel buttons in Mozilla Firefox

Expected Results: Floating keyboard displays everything in both IE 7 and Firefox

Resolution:

The Aleph Floating Keyboard can only be used with Internet Explorer, it is not supported by FireFox. The documentation was updated to include this information.
