Description:

Is z113t tab and index used in version 18? If so, which libraries?

The z113t tab and index are not in ../aleph/tab/file_list.*, and are not in any of the v18 usmxx libs but were in the past versions. They are in versions 15, 16 and 18 alephm/sql_tab directory.

Resolution:

The z113t table is not in use any more in v18 and up. Cleanup of the programs is done in v20 (rep_ver #15305).

v18 and v19 will not be touched; the entries in sql_tab should just be ignored.
