
Duplication in "Check Report for Patron" Message

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 18.01
-

Description:

I am testing rep changes 1185-1485 for Version 18.01 and noticed that patrons with overdue or recall blocks have information duplicated in the "Check Report for Patron" message. Other blocks, such as expiration dates that have passed, are not duplicated.

I don't see anything in tab_block_circ or tab16 that would explain the message duplication. It's not happening in Production which is at rep change 1184. I have attached a screen print.

Resolution:

The text is coming from messages 241 and 242 in ./error_eng/tab_check_circ. And that you have check_circ_9_a and check_circ_10_a in both the LOAN-GBL and the LOAN section.

I think that it is not necessary to have it in the LOAN. (Commenting these lines out and restarting the pc_server eliminated the duplicate messages.)
