

Problem with ill-send-request-letter

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 18.01
-

Description:

When the request is for a journal article, certain elements of the bibliographic information are not appearing in the ill-send-request-letter. The missing elements are Volume, Issue and Pages.

Resolution:

To fix the display, you need to adjust the file abc40/tab/edit_paragraph.eng, column 6 by including A (for all occurrences) in the following line:

```
111 ISS## D ## A
```

Then you need to restart the ALEPH PC Server.
