
Locate error messages in "Update Word Index" (manage-01) log

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 20
-

Desired Outcome Goal:

Locate error messages in "Update Word Index (manage-01)" log

Procedure:

In case service manage-01 fails to update the word index

You can run the following command in \$alephe_scratch directory to locate errors (e.g. if service manage-01 fails to update the word index):

```
egrep "Missing|ORA-|ORACLE|ERROR|fail|duplicate|extents|exceeded|[Aa]bort|[Ee]rror|unable|no space left  
on|Rejected|Err|logical record count 0|missing|Job Suspended|I/O error|Command not found|A file or directory in the path  
name does not exist|cannot" $data_scratch/*manage* | grep -v -i "No errors" | grep -v p_duplicate_mode | grep -v -i terror |  
sort -u
```
