

Print out collection code instead of collection name

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 18.01
-

Desired Outcome Goal:

Update the “Collection” column in the General Retrieval Form (ret-adm-01) to print out collection code instead of collection name

Procedure:

```
vi ./xxx01/form_lng/general-retrieval-form.trn
```

Add the next line:

```
z30-collection NONE S
```

Category: Cataloging (500)

Subject: Create / Edit records (500)
