
Deleting leading dash in Web OPAC holdings statement

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 16.02
-

Description:

Is there a way to delete the leading dash in the holdings statement in the web opac:

- 7(1961)-48(2002)-

It looks like we own up through volume 7 which is incorrect.

How can I eliminate the initial hyphen?

Resolution:

What fields from the HOL record display in the Web Holdings is controlled by the xxx60 edit_doc_999.eng. The format of each of those fields is, in turn, controlled by the xxx60 edit_field.eng.

The edit_field.eng entry for the 866 tag looks like this:

```
1 # 866## D B -8
2 a A ^-^
2 z A ^-^
```

Changing it to:

```
1 # 866## D B -8
2 a A
2 z A
```

will eliminate the initial hyphen.

Additional Information

opac, dash, holding statement
