Description:

We would like to translate the word Basket. How can we do it?

Resolution:

In order to change the term "Basket" to a different term within the e-shelf module please follow the following instructions:

1. in ./m3_N/insNN/www_v_lng/eshelf-2-body add slashes around placeholder \$0400 in the following section, from:

```
<START_SECTION><!-- folder-options -->  
<OPTION value="$0100" $0300>$0400 ($0200)</OPTION>  
<END_SECTION><!-- folder-options -->
```

to

```
<START_SECTION><!-- folder-options -->  
<OPTION value="$0100" $0300>//$0400\ ($0200)</OPTION>  
<END_SECTION><!-- folder-options -->
```

2. in ./insNN/tab/www_const.lng table add the translation of the term "Basket" by inserting the line:

Basket -- Something (where Something equals your local alternative to the term Basket)

- 2a. In the same file, edit the translation of the term "My Basket" by editing the line:

My Basket -- Something

3. restart www servers: start_w

Additional Information

My Space,
