
Implementation Notes for fix 163 - MetaLib SP 4.05

- **Article Type:** General
 - **Product:** MetaLib
 - **Product Version:** 4
-

Description:

Corrections made to HTML files. The first 3 fixes are highly recommended, while the fourth is optional. Manual changes need to be made only by customers who have already run Upgrade Express or by new customers following local institutional setup.

Please see attachment to implement the changes.
