

## Rosetta rollback procedure for 3.2

- **Article Type:** General
  - **Product:** Rosetta
- 

### Description:

If a rollback of SP 3.2 is needed, the following procedure needs to be run manually to delete the Solr index directory and re-index the repository:

```
dps_stop
rm -rf /exlibris/dps/d4_1/profile/solr/data/index (solr data dir is dps.storage.idx global property)
dps_start
s+ shr00
BEGIN
REINDEX_FULL_REPOSITORY();
END;
/
```

### Resolution:
